

## PRODUCTS AND SERVICES PRICE LIST & ORDER FORM

### **C DIS-5 & C SAM-5 INVESTIGATOR'S LICENSE + Training Course ..... \$4000.00 per project**

The C DIS-5 requires training for its proper administration. A three-day training course is offered by the Department of Epidemiology at the University of Florida. This training course includes lectures, homework assignments, group practice, and supervised administration with face-to-face interviews.

One license is required for each project and is valid until for up to 3 years. Once purchased, the Investigator's License authorizes the user to install the C DIS-5 and C SAM-5 on multiple computers, for that one project only.

**Includes:**

Electronic Copy of the Paper Interviews

Database

Scoring Program and Algorithms

Question by Question Specifications

Manual/Instructions

Codebook of Variables

Mock Interviews

Homework

Homework Answer Key

Admission to the Training Course for up to two trainees (+ \$1000 for each additional trainee)

Free Support Services for 90 days

### **C SAM-5 INVESTIGATOR'S LICENSE + Training Course..... \$2500.00 per project**

The C SAM-5 requires training for its proper administration. A one-day training course is offered by the Department of Epidemiology at the University of Florida. This training course includes lectures, homework assignments, group practice, and supervised administration with face-to-face interviews.

One license is required for each project and is valid until for up to 3 years. Once purchased, the C SAM-5 Investigator's License authorizes the user to install the C SAM-5 on multiple computers, for that one project only.

**Includes:**

Electronic Copy of the Paper Interview

Database

Scoring Program and Algorithms

Question by Question Specifications

Manual/Instructions

Codebook of Variables

Mock Interviews

Homework

Homework Answer Key

Admission to the Training Course for up to two trainees (+ \$500 for each additional trainee)

Free Support Services for 90 days

## **DESCRIPTION OF MATERIALS**

### **ELECTRONIC COPY OF THE PAPER INTERVIEWS**

Electronic copies of the instruments are included with the installation package. If you need a hard copy of the instrument, you may simply print a copy.

### **DATABASE**

The databases for the C DIS-5 and C SAM-5 are automatically installed on your computer when you install a copy of the program. The database is in Access 2013 and 2016 format and will contain all the data gathered for a particular project.

### **SCORING PROGRAM AND ALGORITHMS**

DSM-5 algorithms are provided for diagnoses and their subtypes for both the lifetime and the last 12 months. For each diagnosis it also evaluates and reports on each DSM-5 criterion, counts positive symptoms and reports on onset and offset of each disorder. Algorithms are written in SAS software programming language for use on an IBM or compatible personal computer or adaptation to any operating system using SAS software.

### **QUESTION BY QUESTION SPECIFICATIONS**

The question by question specifications are included in a file named "specs" for each section, or module, of the C DIS-5 and C SAM-5, and they provide the intent of each question, as well as specific information needed to correctly answer a question.

### **MANUAL/INSTRUCTIONS**

The ReadMe file is included with the installation package and provides detailed directions for the C DIS-5 and C SAM-5. It describes everything from initial installation, data merging, installing updates, to scoring the data.

### **CODEBOOK OF VARIABLES**

The codebook provides a list of each variable included in the C DIS-5 and C SAM-5 and the corresponding question.

### **MOCK INTERVIEWS AND HOMEWORK**

The mocks and homework are materials for teaching interviewers to use the C DIS-5 and C SAM-5 INTERVIEWS. The MOCKS are question-and-answer scripts, showing the correct way to follow-up on and score commonly encountered responses to DIS questions. The trainer plays the role of "Respondent," following the script, and refers to it to check whether the interviewer has correctly coped with the "Respondent's" replies. HOMEWORK (with answers) is provided to verify that the interviewer-in-training understood the instructions. These are included with the Investigator's License when the training is purchased.

**If you are interested in any of the C DIS-5 or C-SAM 5 services and materials, please fill out and return the attached order form.**
