The University of Florida...

...is a major public, comprehensive, land, sea and space-grant university. Florida’s oldest and most comprehensive institution of higher learning, UF is among the nation’s most academically diverse public universities. Over 5,000 of the 50,000 students are international and come from over 130 countries. UF is also home base for over 2,000 study abroad students in over 50 countries.

The Department of Epidemiology is host of this program; it is housed in the College of Public Health and Health Professions and the College of Medicine, two of the six Colleges of the University’s Health Science Center. The Health Science Center also includes the Colleges of Pharmacy, Nursing, Dentistry, and Veterinary Medicine. Co-host Psychiatry is a part of the College of Medicine.

The Mission of the Department of Epidemiology...

is to improve health globally through education, training, research and service.

Certificate in Psychiatric Epidemiology

- The only certificate program of its type in the world
- Prepares physicians, residents and mental health professionals to address the critical mental health challenges of our time
- 15-credit, TOTALLY online program
- Ideal for busy professionals and academics
- Learning opportunities include seminars, consultation and networking with field leaders at International conferences
- Live chats and discussions encourage peer-to-peer interaction and a sense of “cohort”
- Classes are taught by internationally known Professors from the Departments of Epidemiology and Psychiatry
- Two methods of access: asynchronous and synchronous (live)
- Lectures, assignments and assessments are available on demand
- Courses utilize live- and pre-recorded audio and video lectures with associated readings and PowerPoint presentations
- All course material is housed on a course management system
- Graduates join the vibrant international cohort of psychiatric epidemiologists around the world

Applications

- Accepted on a rolling basis
- Submit application to http://www.admissions.ufl.edu/start.html
- Submit resume, personal statement < 500 words explaining career goals, and a current reference
