PHC 7934 COURSE SYLLABUS
Epidemiology Seminar I: Seminal Epidemiologic Texts
Fall Semester, 2014
Tuesdays, 9:35AM to 11:35AM; 2 credit hours
Room: HPNP G-109

Instructor Information
Xinguang “Jim” Chen, Professor of Epidemiology
Department of Epidemiology
College of Public Health & Health Professions, College of Medicine
University of Florida Health Sciences Center PO Box 100231
Gainesville, FL 32610-0231
352-294-5945 (office)
352-273-5365 (fax)
E-mail: jimax.chen@ufl.edu
Office location: CTRB 4228
Office hours: By appointment

Course Overview or Purpose
This course can be taken by students in the Epidemiology PhD program in year 1 or year 2 or with instructor permission. The two main purpose of this course are: (1) to consolidate the knowledge base and to enhance the basic understanding of what is epidemiology, what are epidemiologists doing; and (2) to train students on how to choose the direction and topic areas of their own research. The study goals will be achieved by (1) exposing students to a set of carefully selected epidemiological programs and published manuscripts/book sections in epidemiology, (2) discussing the findings and implications of seminal epidemiologic manuscripts that resulted from major programs of research, 3) reviewing the strengths and weaknesses of major epidemiologic study designs and methodological approaches in the context of reviewing seminal texts; and 4) applying knowledge of epidemiologic methods to the students’ own research studies.

Course Objectives
Upon successful completion of the course, students should be able to:

- Describe the goals, historical context, primary exposures and outcomes of interest, and public health importance of major programs of epidemiologic research.
- Summarize the findings and public health implications of seminal epidemiologic studies that resulted from these programs of research.
- Discuss the strengths and weaknesses of major epidemiologic study designs.
- Describe the epidemiologic methods, including field methods and analysis plans, used to conduct a new study (methods ideally will be informed by approaches presented in papers reviewed during the Seminar).
**Course Format**

Both didactic and interactive methods of instructions will be employed. While the instructor will give brief lectures to review key elements of the epidemiologic study design or approach featured in classic/prominent texts, the majority of the class time will be focused on group discussion of the readings.

**Course Materials**

Sakai

Sakai is accessible at lss.at.ufl.edu or through my.ufl.edu. You must have a valid Gatorlink ID and password to access the site. For assistance, call the UF Help Desk at 392-HELP. Students will need to log onto Sakai and print all electronic files provided for the class prior to the start of each class (except the first class). If materials are not posted in Sakai, we will provide hardcopies in class. Readings will be posted one the week prior to when they must be read. Lecture notes, provided as Power Point presentation slides, will be posted for some but not all classes. If lecture notes are posted, they will be posted by 9pm on the day prior to the class and should be printed by students and brought to class.

**Text/Readings**

There is no textbook required for this class. All readings will be assigned the week prior to the class they are due.

**Course Requirements**

Class discussion. Students will be asked to carefully review summaries on prominent programs of research and to read 1-2 classic epidemiologic papers prior to class. Students will actively participate in each class discussion. Students should be prepared to summarize findings of the studies, to discuss public health implications, and to share comments and questions about the readings.

Discussion leader. Each student will lead the class discussion of the readings at least once during the semester. The discussion leader will prepare a brief presentation to 1) describe the goals, historical context, primary exposures and outcomes of interest, and public health importance of the featured research program (e.g., will summarize the Framingham Heart Study) and 2) highlight key points of the seminal study of the week that was written in the context of the research program. After the presentation, discussion leaders will facilitate discussion of the study. Discussion leaders should have comments and questions related to the study prepared, and he/she should be capable of keeping the discussion flowing for the duration of the class period.

Presentation. Please present to the class the field and analytic methods of a study you currently are conducting or that you wish to conduct in the future. The content of the presentation should be similar to what would be presented in the Methods section of the manuscript that is written to present your study’s results. If appropriate, please incorporate approaches used in papers reviewed during the Seminar. Students should first (briefly) describe the rationale for conducting the study and the specific aims and hypotheses of the study of interest and then outline in detail the field methods used to collect the data being analyzed and the analytic plan designed to address the specific aims. Students should present their studies in 20 minutes and should allow 20 minutes for feedback from peers.
Grading

Grades will be based on attendance (10%), participation in class discussion on a regular basis (30%), participation as a discussion leader (20%), and the presentation (40%). Students must use Microsoft Power Point for their class presentations. Presentations will be graded on quality and creativity of content, as well as clarity, style, and delivery. All deadlines must be met.

Grading Scale

93% - 100% = A  
90% - 92% = A-  
87% - 89% = B+  
83% - 86% = B  
80% - 82% = B-  
77% - 79% = C+  
73% - 76% = C  
70% - 72% = C-  
67% - 69% = D+  
63% - 66% = D  
60% - 62% = D-  
Below 60% = E
Course Outline

8/26 Introduction

Become familiar with each other
Introduce the course
Select papers by individual students for focused reading and summary report by sessions

9/2 Populations and Health

Reading

Self-selected readings related to “demographic transition theory”

9/9 Tuskegee Syphilis Study

Readings

9/16 Smoking and Lung Cancer

Readings

One or two other papers under student’s choice, examples may include gene-tobacco interactions.

9/23 Nurse’s Health Study/Obesity Study

Readings

9/30  Framingham Heart Study

Reading

10/7  Women's Health Initiative

Readings

10/14  Global Burden of Disease Study

Reading

10/21  Epidemiologic Catchment Area Study

Reading

Background Reading

10/28  North American-AIDS Cohort Collaboration on Research and Design

Reading

11/4  NO CLASS

Last revised 10/6/2014 10:42:44 AM
11/11  Place and Health: Moving to Opportunity

Reading

11/18  Randomized Trial for Behavioral Intervention Research: Design and analysis

Reading

11/25  Student Presentations

12/2  Student Presentations

Course Policies

Classroom Etiquette

Please come to class on time and be prepared to stay until the time scheduled as the end of class. We think your investment in the degree is worth maximizing your in-class experience, and we expect to provide materials that extend the full, scheduled class times. Pagers and cell phones should not be used in class. The use of cell phones, text messaging, and pagers is one of the most common complaints we have from students in recent years. Please turn them off, or, if you expect urgent calls, set them to “vibrate.”

Attendance

Class attendance is mandatory. Excused absences follow the criteria of the UFL Graduate Catalogue (e.g., illness, serious family emergency, military obligations, religious holidays), and should be communicated to the instructor prior to the missed class day when possible. UFL rules require attendance during the first two course sessions. Students are responsible for all material presented in class and meeting the scheduled due dates for class assignments.

Make-up Work

Students are allowed to make up work ONLY as the result of an excused absence. If a student knows he or she will miss a class and is scheduled to give a presentation on the day that he or she misses, he or she must be prepared to present the following class.
University policies regarding attendance and make-up work are available in the catalog:
https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx
https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

Academic Integrity

Students are expected to act in accordance with the University of Florida policy on academic integrity. As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge:

“We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For additional information regarding Academic Integrity, please see Student Conduct and Honor Code, the Graduate Student Handbook and these web sites for more details:

https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/
http://www.dso.ufl.edu/sccr/honorcodes/conductcode.php
http://www.dso.ufl.edu/sccr/studenthandbook/studentrights.php
http://gradschool.ufl.edu/students/introduction.html

Cheating, lying, misrepresentation, or plagiarism in any form is unacceptable and inexcusable behavior.

Accommodations for Students with Disabilities

Students requiring accommodations must first register with the Dean of Students' Office. The Dean of Students' Office will provide documentation to the student who must then provide this documentation to the faculty member when requesting accommodation. The College is committed to providing reasonable accommodations to assist students in their coursework. We all learn differently; however, if you have experienced problems in university classes with writing, in-class exams, understanding or concentrating in class; please talk to us or access a learning or education testing resource at the University or in another professional setting. For your assistance, should you need them, please consider either of the following:

University Counseling Services
http://www.counsel.ufl.edu/services.asp
P301 Peabody Hall – 392-1575
Student Mental Health Services in the Student Health Care Center
http://www.health.ufl.edu/shcc
Room 245, Infirmary Bldg.- 392-1171
**Counseling and Student Health**

Students may occasionally have personal issues that arise in the course of pursuing higher education or that may interfere with their academic performance. If you find yourself facing problems affecting your coursework, you are encouraged to talk with an instructor and to seek confidential assistance at the UF Counseling & Wellness Center, 352-392-1575. Visit their website for more information: [http://www.counseling.ufl.edu/](http://www.counseling.ufl.edu/).

The Student Health Care Center at Shands is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at Shands offers a variety of clinical services, including primary care, women’s health care, immunizations, mental health care, and pharmacy services. The clinic is located on the second floor of the Dental Tower in the Health Science Center. For more information, contact the clinic at 392-0627 or check out the website at: [www.health.ufl.edu/shcc](http://www.health.ufl.edu/shcc)

Crisis intervention is always available 24/7 from:

Alachua County Crisis Center:

(352) 264-6789
[http://www.alachuacounty.us/DEPTS/CSS/CRISISCENTER/Pages/CrisisCenter.aspx](http://www.alachuacounty.us/DEPTS/CSS/CRISISCENTER/Pages/CrisisCenter.aspx)

BUT – Do not wait until you reach a crisis to come in and talk with us. We have helped many students through stressful situations impacting their academic performance. You are not alone so please do not be afraid to ask for assistance.
